

Earnings Call Transcript API

The Earnings Call Transcript API provides access to full transcripts of earnings calls for major companies every quarter. For a list of all available earnings call transcripts, see the [/v1/earningscalltranscriptslist](#) endpoint.

/v1/earningstranscript GET

https://api.api-ninjas.com/v1/earningstranscript

Returns the earnings transcript for a given company earning quarter. Historical earnings call transcript data is available from 2000 onwards.

Parameters

If you do not specify a year or quarter, the API will return the most recent earnings call transcript.

ticker required Company ticker symbol (e.g., <input type="text" value="AAPL"/>).
year optional Earnings year (e.g., <input type="text" value="2025"/>). Must be a valid year between 2000 and the current year. For historical earnings call transcripts before 2025, you must have a premium subscription. If set, <input type="text" value="quarter"/> must also be set.
quarter optional Earnings quarter from Q1 to Q4. Must be one of the following values: <input type="text" value="1"/> , <input type="text" value="2"/> , <input type="text" value="3"/> , <input type="text" value="4"/> . If set, <input type="text" value="year"/> must also be set.

Headers

X-API-Key required API Key associated with your account.
--

Response

date The date of the earnings call.
transcript The transcript of the earnings call.
transcript_split premium only The transcript of the earnings call split into sections by speaker. Each speaker's name, company, and role are included.

ticker	<input type="text" value="MSFT"/>
year	<input type="text"/>

quarter

https://api.api-ninjas.com/v1/earningstranscript?ticker=MSFT&year=&quarter=

Headers

X-API-Key

+t69rRk12riBxRuAks5IXg==DHao67VBXP6iMzXA

Send Request

Sample Response

JSON

```
1 {
2   "error": "Error retrieving earnings transcript. ticker, year, and quarter parameters are required."
3 }
```

Code Examples

Python

```
1 import requests
2
3 ticker = 'MSFT'
4 year = 2024
5 quarter = 2
6
7 api_url = 'https://api.api-ninjas.com/v1/earningstranscript?ticker={}&year={}&quarter={}'
8 response = requests.get(api_url, headers={'X-API-Key': '+t69rRk12riBxRuAks5IXg==DHao67VBXP6iMzXA'})
9 if response.status_code == requests.codes.ok:
10     print(response.text)
11 else:
12     print("Error:", response.status_code, response.text)
```

If your programming language is not listed in the Code Example above, you can still make API calls by using a HTTP request library written in your programming language and following the above documentation.

/v1/earningscalltranscriptslist

GET

Developer and Business tier only

https://api.api-ninjas.com/v1/earningscalltranscriptslist

Returns a list of all available earnings call transcripts.

Parameters

This endpoint does not require any parameters.

Headers

X-API-Key required

API Key associated with your account.

Response

Returns an array of objects, each containing:

ticker
The company ticker symbol.
company
The company name.
